Office Action Summary	Application No. 10/798,349	Applicant(s) LIU ET AL.	
	Examiner Steven L. Weinstein	Art Unit 1794	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 August 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

The following Final Rejection, Office action is a supplemental Office action to the Final Rejection mailed 12/15/08. The content of the Office action is the same as that mailed 12/15/08. The Office action of 12/15/08 inadvertently omitted the Final Rejection paragraph at the end of the Office action which this version corrects. Applicants period for response is re-set to begin with the mailing date of this Office action.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1,3-7,9,10,13-20, and 23-34 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hankinson et al (2003/0198716), in view of Martin et al (5,912,034), or vice versa, i.e., Martin et al in view of Hankinson et al, further in view of Shenouda et al (4,814,193), Alderton (3,328,178), Creston Valley Foods (GB 1510883), and Allen (1,098,006), further in view of Martin et al (6,500,476), Beelman et al (5,919,507), Beelman et al (2003/0170354), Sapers et al (4,814,192), Farrier et al (4,011,348), and Reyes (6,159,512), essentially for the reasons of record in the Office actions mailed 2/13/07, 9/28/07, and 4/21/08.

The amendment filed 8/20/08 now adds new claim 34. Like the previous claims, claim 34 recites two sequential steps of contacting mushrooms with aqueous solutions wherein the first step has a low pH and the second step has a higher pH, both previously recited. Claim 34 newly recites the ingredients of each solution and that each

Art Unit: 1794

solution "consists essentially" of these ingredients. As noted previously, acidification with follow-up neutralization, as well as chelating and antioxidant treatments, are notoriously conventional in the art as are the recited chemical substances that will cause a lowering of the pH, the rising of the pH, and the reduction in browning. Once it was known to add conventional compounds to lower and then raise the pH to eliminate bacteria, while preventing product damage, and add conventional compounds that function as chelating and antioxidants, the particular combination of these conventional compounds is seen to have been nothing more than an obvious result effective variable, routinely and obviously determinable, and at best routinely optimizable.

All of applicants' remarks filed 8/20/08, have been fully and carefully considered, but are not found to be convincing for the reasons fully and clearly detailed as set forth in the Office actions of record. The urgings are seen to be, at best, restatements of urgings previously considered.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1794

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
